# POLESYSTEM

NON-RETRACTABLE X-TYPE BANNER

Pole System is the perfect system when you need to raise your message up from the floor so it can be seen clearly. It's ideal for public environments. To create even more exciting environments – combine it with other systems. Pole system is easy to use with its flexible height and width measurements. A double-sided version is also available. The Pole System comes optional with a lightweight and convenient low voltage spotlight in an attractive design. Panel profiles for double-sided systems are available. The package contains a frame with integrated stabilizing feet, top and bottom profiles, panel strips (for single-sided images) as well as a protective bag for the images and a bag for the entire system.
