

ENBRIDGE®
Life Takes Energy™

DOES THE **VISIBILITY** OF THE **ALUMINUM STRUCTURE** REALLY PROMOTE YOUR BRAND?
PROMOTE YOUR BRAND, NOT THE STAND.

panoramic™
full visual system

100% OF THE SURFACE IS DEDICATED TO YOUR MESSAGE.

Panoramic is a revolutionary modular display system that features virtually seamless fabric graphics that completely cover the display structure. Because your graphics and messaging are unobstructed, your display's imagery is rendered more powerful.

YOU EITHER HAVE A **FULL VISUAL DISPLAY SYSTEM** OR YOU DON'T.

Panoramic utilizes an extrusion with a unique feature - an innovative channeled cap that allows fabric graphics to wrap around corners to conceal the display hardware. Unlike most modular systems which simply frame the graphics between upright posts & horizontal beams, Panoramic graphics fully cover the display structure resulting in virtually seamless imagery and messaging.

Typical modular systems simply frame the graphics within the display structure (left) whereas Panoramic allows for fabric graphics to completely wrap the structure allowing for unobstructed text and images (right).

A silicone strip is sewn directly to the edge of the fabric graphic which is then inserted into the frame. The sew line is hidden within the extrusion and graphics are perfectly stretched eliminating any wrinkles.

Panoramic allows for eye-catching visual effects and seamless communication. When 100% of your display structure is wrapped in vibrant dye-sublimation fabric graphics, your branding and message presents a true uninterrupted image of quality.

NO TOOLS OR EXPERTISE NECESSARY.

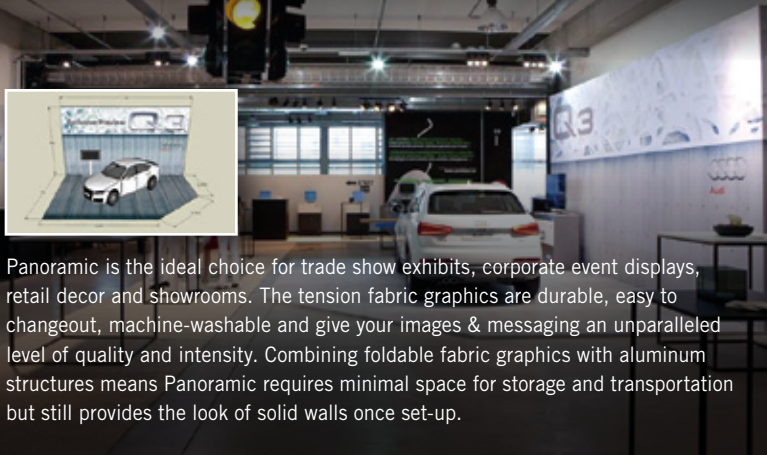

With convenient packaging and a clearly labeled parts system, Panoramic offers a quick and stress-free set-up. Featuring easy wire management and fewer parts and pieces than most traditional modular systems, setting up your display has never been this simple. Because Panoramic fabric graphics are so simple and quick to install, you can even swap out your messaging as often as you require throughout the duration of a specific trade show or event.

LIGHTBOXES TO GIVE YOUR MESSAGE ADDED IMPACT.

Panoramic lightbox is the next generation of backlit solutions, increasing the visual impact of your display when combined with the already known benefits of the full visual Panoramic modular system.

THE PERFECT COMBINATION OF TENSION FABRIC GRAPHICS AND ALUMINIUM STRUCTURES.

Panoramic is the ideal choice for trade show exhibits, corporate event displays, retail decor and showrooms. The tension fabric graphics are durable, easy to changeout, machine-washable and give your images & messaging an unparalleled level of quality and intensity. Combining foldable fabric graphics with aluminum structures means Panoramic requires minimal space for storage and transportation but still provides the look of solid walls once set-up.

CREATE STUNNING FLOOR TO CEILING GRAPHICS EFFECTS.

Panofloor custom printed carpet creates an atmosphere that completely immerses your visitors by delivering powerful visual effects. Experiment with material textures, faux finishes and graphic illusions to give your Panoramic display a truly customized and unique look that is sure to grab attention.

DESIGN & CREATE UNLIMITED MODULAR CONFIGURATIONS.

Using Panoramic H-Line, it's easy to create customized exhibits, event displays or define spaces by using pre-assembled modules that offer a wide range of functionalities. All H-line module types can be connected to one another without restrictions making it 100% modular and reconfigurable.

H-LINE MODULES & CONFIGURATIONS ARE ALSO AVAILABLE TO RENT.
