#### Pre-assembled modules

Welcome your customers

3

### 4 Concept

- Panoramic h-line is a trade show display system which allows you to easily create a custom exhibit using pre-assembled modules.
- With its full surface area competely dedicated to the graphic image, Panoramic h-line creates an unparalleled visual impact while also providing a full assortment of useful functionalities.
- Panoramic h-line is a perfect solution for those that would like an exhibit that is both modular and flexible for purchase or rental.

### Benefits

#### Five reasons to choose panoramic h-line

• Showcase your image

Put the graphic image front and center! No visible aluminum profile means your message is even more effective and your exhibit carries a true mark of quality.

• Endless modularity

All module types can be connected to one another - no restrictions! **Rest assured that you can use your exhibit in every space,** even those you have yet to consider. Panoramic h-line is a completely scalable solution that grows along with your company.

• Focus on the essentials!

Each module has been designed to provide its own unique functionality (communicate, display, design, spread your message, store, and welcome customers). You can pre-fit certain modules by adding optional kits for even more functionality.

• Be creative!

Distinguish your company by creating your own custom graphic or use our database of colors and patterns specifically chosen for Panoramic h-line. Put a part of yourself in your exhibit!

• CLEVER & SIMPLE

Panoramic h-line requires **zero technical expertise** and is set-up without the use of tools. Set-up up the exhibit yourself, or with our assistance. Standard modules do not exceed a weight of 19 lbs. Set-up for a 20' x 10' exhibit takes less than 1 hour for 1 person.

panoram

Concept

**3 modules sizes:** 9.5″, 19″ and 38″

Every panel is delivered with pre-installed graphics, just connect them!

panoramic

h-line

All module types can be connected to one another

Result: no visible aluminum profile!

#### Graphics

- Dye-sublimated fabric graphics
- Features a silicone edge (SEG) attachment system, in which silicone is sewn into the edge of the graphic and is then inserted into the groove of the Panoramic profile.
- Extremely precise graphic dimensions ensure perfect graphic tension upon installation
- The right fabric for each use: opaque Panopac fabric for maximum visual impact and optimal color rendering, light-diffusing fabric for lightboxes and backlit frames
- Easy to transport and ship
