FULL VISUAL SYSTEM

Panoramic is a revolutionary modular exhibit system which offers a seamless fabric graphic by completely covering the display structure

pan•o•ram•a (*pn-rm, -rām*) n.
• a : an unobstructed or complete view of an area in every direction
• b : a comprehensive presentation of a subject

All information is accurate at time of publishing. Structures and availability are subject to change without notice. Refer to your local dealer for the most up-to-date information and availability.

“A sleek and durable exhibit”

ARCHITECTURAL EXHIBIT

Panoramic is a modular exhibit system that virtually disappears behind beautiful fabric graphics which fully cover its structure

“ Panoramic™ takes full advantage
of SEG graphics ”

SEAMLESS

COMMUNICATION

PANORAMIC™ aluminum extrusion frame is a unique concept. The entire display is transformed into one continuous fabric graphic design. The exhibit structure truly becomes your brand image or message. The SEG (silicone edge graphic) fabric graphics are of the highest image quality and custom finished to match your specific design. The fabric graphics fold up making your entire display easy to store and transport.

...at seeks the answer to the question

“ Why? ”

“ Though the structure is out of sight, it is never out of mind ”

DETAILS WHICH MAKE A

DIFFERENCE

- frame structure is simple to work with
 - fewer parts and pieces
 - easy wire management
 - convenient packaging system
- white powder-coated finish resists dirt and it looks great
 - simple label system of all parts
 - grows with your exhibit needs
- accessories like monitor mounts, shelves and bases

“ Quick & stress-free setup ”

SET UP

1 Each configuration is pre-mounted: the caps are attached to the aluminum profiles

2&3 The profiles quickly assemble thanks to an angled bracket that is invisible after set-up

“ Putting up your booth has never been this simple ”

“ Manage your costs & logistics ”

GRAPHIC

With SEG graphics there is a silicone edge on every side. Your graphic is easily inserted into the aluminum profiles and is always perfectly stretched without wrinkles.

GRAPHIC

TRANSPORT

A simple envelope is enough to transport the graphics covering your exhibit.

INSTALLATION

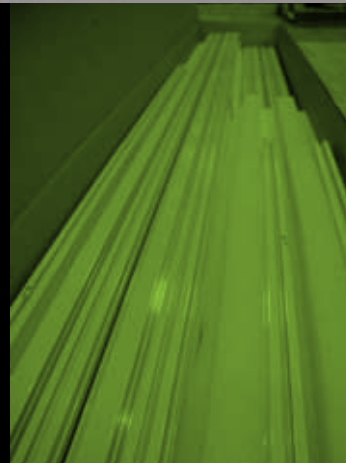

“ Change your message every day of the show ”

TRANSPORT

With up to 40% less materials than configurations of the same size in other systems, with Panoramic™, your set-up time is optimized, and transport and storage are more economical.

Full Graphics

“ Choose from existing exhibit components, combine to create unique exhibit spaces or add them to your existing exhibit. Since only the graphic is visible, Panoramic™ exhibit components go with any display. ”
