

- 01** Rotate the support foot 90° (perpendicular) to the Roll Up Penta's base. Unfold and assemble the 2-piece pole sections. Insert the pole assembly through the slot on the back of the base and into the hole of the support foot.

- 02** Pull the graphic panel out of the base and insert the top of the pole into the slot on the back of the top profile bar.

- 03** Pull up the telescopic pole section and lock in place at the graphic height by twisting the clamps.

- 04** Assembly is complete.
