RESIN (MATTE)

Available in small, medium and large sizes in a matt finish ▼

METALLICS

Available in small, medium, large, XL and XXL sizes ▼

ALUMINUM

Available in the following sizes in a natural finish ▼

Standard Parts A B C

Optional Extra Parts D

The internal back wall of A parts is designed to accommodate the head of an 8 or 9 gauge countersunk screw or bolt.

Important:
Use approved wall anchors when required.

B parts screw into A or D parts. C parts screw into B parts.

Thread Size: 9.8mm = 3/8"

Thread Size: 4.8mm = 3/16"

D parts are used to hold more panels and/or increase the stand-off distance.

D parts screw between A and B parts.

Thread Size: 9.8mm = 3/8"

1 Heavy panel
2 Light Panel

B parts support heavier panels.
C parts support medium/light weight panels.

1 Back panel
2 Graphic image
3 Front panel

B parts hold the back panel separately from the front panel. When the front panel is removed, the back panel remains secured. This makes installation easier and faster, and image changing simple and safe.

1 Optional panel
2 Optional panel
3 Optional image
4 Front panel

D parts give you the ability to multi layer panels, creating new opportunities for incorporating layers of colours, textures, offsets and other dramatic effects. D parts are also used to increase the standoff distance.
